From us "signaling the plane"  
to the "willy bounce"  
Remember when we had 8 fire  
drills in one day.  
Everybody failing OJ class  
Updoes and crimp ponytails  
was what was up for Prom.  
Year of the Weave and Braids.  
Everybody had a pair of ups on  
the first day of school.

"Freshmen"

At one point we all had an  
upper classmen boyfriend.

was young and it used to be

## 007

What does it take to be a part of 007? It takes perseverance, determination and lets face it, it wouldn't be 007 without all of us. In 2003 we entered Weaver High, as freshmen we did not have a clue of what was to become of us in the next four years, but look at us now, we're seniors. Some of us didn't think we would make it this far and honestly we lost a few along the way for various reasons, but they too will forever be on the 007 team. From the day we entered Weaver High to this day there wasn't a dull moment, from our first pep rally, to spirit week, homecomings, Turkey Games and dances we have come a long way. We have matured, some more than others, but we have all grown together and proud to be able to say that in June 2007 we will be able to close, but never forget this chapter of our lives.

Both as a class and individually we all have had our ups and downs. From empty threats of dropping out, to just skipping class we still made it. But there were the times when we could all celebrate, like the first day walking through the doors as the real upperclassmen. Football victories, Track Team State Champs, Basketball games, and Soccer team Conference winners, we have had our share of good times.

Throughout our years at Weaver we have been in the headlines of the six o'clock news a number of times, for a number of reasons. But no one knows the truth, no one knows what really goes on behind our doors. Even though our time is almost up we still have a chance to show them what kind of talented individuals Weaver can produce. We still have a chance to prove everyone wrong, and be the success that so many people counted on us not to be. We can show them what they really missed out on when they showed up on our sidewalk with cameras and microphones in the early morning instead of showing up for football or basketball games, track meets and black history month events. But to do this we all have to make up our minds to just ride it out and never give up, because if we don't we will become nothing but the underpaid statistics they predicted us to be. "Even it seems the rain will neva let up, you gotta keep ya head up" - Tupac
